

### Kristin Schneider, Sales Manager

A familiar face in College Park, Schneider joined the ATL Airport District Team from a previous role at the nearby Georgia International Convention Center. In addition to bringing teamwork, patience and flexibility to the organization, Schneider's responsibilities include identifying and coordinating business in states west of the Mississippi as well as the Washington D.C. market, and joining the rest of the ATL Airport District team in promoting the District as a superior location for meeting and convention planners.

Schneider has a unique background in pharmaceutical sales at Arbor Pharmaceuticals and also served as an assistant coach in women's basketball at both Vanderbilt and Xavier Universities. Schneider is a perfect addition to the team in selling the District as a leading destination for meetings, conventions and leisure. She loves the diversity of each day in the District and meeting different people throughout the area.

Described as loyal, level headed and a good listener, Schneider brings tenacity and great listening skills to the team. Her spirit animal is a whale, because of her strong inner voice and self-awareness. She loves a good wine, dining at Volare Wine and Bistro, watching (and tailgating for) college and NFL football and golf. Kristin also loves traveling, having gone to nine different countries and 46 states!
