

Pabs Raghava Tours Limited

CEO , TOURS LIMITED

Pabs established "Tours Limited" a destination management company in the year 2008, and since then has guided the company to great heights to become one of the most recognized tour operating companies in America. Pabs established this company with limited resources and through sheer grit and hard work grew the company into a multi-million dollar business, serving hundreds of business clients and thousands of traveling customers. Tours Limited has earned a stellar reputation within the travel industry in a relatively short period of time, and much of the credit for this goes to Pabs "lead by example" leadership style. Tours Limited is a predominantly women managed company, where practically all departments are headed by women, who were initially mentored by Pabs. This team of enterprising women with little or no experience in the travel industry was groomed and trained by Pabs, to conduct meticulous tours for travelers and visitors from abroad coming to visit our great country and other countries in the Americas. Today, this team of women stands tall and confident with extensive product knowledge of the USA and other contiguous countries, providing a valuable service to the traveling customers, and generating valuable employment opportunities for local communities at various tourist destinations.

ABOUT TOURS LIMITED

Pabs was born and educated in India and worked with a leading travel company for a couple of years before migrating to the USA, after marriage. Her passion for travel is what motivated her to start Tours Limited.
Another important factor reflecting her own experience was to encourage young mothers to find a career where they would be able to balance work and family. The flex time and contract nature of work is hugely beneficial to women who want to work and experience professional satisfaction, without neglecting family and children who come first.

Pabs decided to concentrate on the Indian diaspora initially to develop a customer base, as she was well aware of their requirements during travel, ex. food habits etc. In addition, India is a large and rapidly growing economy with a huge market potential. Since then, Tours Limited has expanded its horizons greatly to serve customers from the Middle East, South Asia, Australia, and New Zealand. From a humble beginning in Duluth, Georgia eight years ago, Tours Limited today serves customers from all over the world and has ambitious plans for becoming a truly global company. In no small measure is this success attributable to Pabs and her zeal to make a difference for those around her.
